DISTURBANCES HAVE STOPPED IN TOKIO

No Disorders Occur During the Night, Says Report.

WORKING TO CHECK RIOTING

Political Leaders Are Counseling the People To Be Quiet and Urge Government to Call an Immediate Session of the Diet.

Tokio, Sept. 9.—The city is quiet this morning. No serious disorders were reported anywhere during the night.

Tokio, Sept. 7.—9 p. m.—(Delayed in Transmission.)—Strong influences are working toward calming popular excitement and checking the rioting. The opinion is expressed tonight that the worst violence has passed and that the conditions will speedily mend.

General Sakumo, who assumed the charge of the capital today under the authority of the emergency ordinance, has in his proclamation created a good impression owing to the conciliatory tone in which it is expressed, and its note of firmness in declaring that the soldiery will resort to extreme measures if forced to do so. He has refrained from making a heavy display of military force in the city, having only detailed guards to preserve order, holding the main garrison of reserves at the barracks from when he will only call them when forced to. The municipality has also greatly relieved the situation by cancelling a mass meeting called at Hibaya park, which is the rallying ground for the elements of disorder.

Political leaders are counselling the people to remain quiet and conferring with the government urging speedy calling of a special session of the diet.

Many belive that the issuance of the summons for the special session of the diet will fully restore tranquility among the public. The report that trouble has spread at Chiba, forty miles distant from Tokio, has been partly confirmed.

It seems certain that the police station was destroyed, but the destruction of the prefectural office and court house is not confirmed. Japanese representatives of the Associated Press who have been watching the rioting report that the character of the crowd has changed materially of late. They say that earlier in the trouble thousands of responsible citizens joined in the rioting, but that now the crowd is largely formed from the disreputable classes, students and young rowdies. The day has been quiet in Tokio and no trouble is expected tonight.

A heavy rain began to fall at dusk which drove the majority off the streets and indoors.

French Legation Under Guard.

Paris, Sept. 9.—The foreign office has received a dispatch from Tokio saying that the French legation is guarded by 80 soldiers and that the security of the personnel of the legation is not considered in danger. Measures have also been taken to protect the French religious establishments in Tokio.

Fire in Tobacco Factory.

Danville, Va., Sept. 9.—Fire in the tobacco district today destroyed three buildings entailing a loss which will exceed $100,000. The principal losers were J. B. Anderson & Co., C. C. Dula, of New York, Chalmers Patterson and Mrs. Allen Patton. A warehouse was demolished by a falling wall. The losses are partially covered by insurance.

Paper in Receiver's Hands.

Asheville, N. C., Sept. 9.—The Salisbury Evening Sun has been placed in the hands of receivers upon application of William L. Gepper, manager of the publication. P. S. Carlton has been named as receiver and the publication of the paper ceases today. G. C. Caddell, former editor of The Sun, will engage in the insurance business; their [illegible] a reasonable discount. [illegible] carpenters will be put [illegible] White's Co[illegible]

WITTE PRAISES AMERICANS.

Declares Russia and United States Greatest Contries in World.

New York, Sept. 9.—"America and Russia are almost like the far-famed Siamese twins," said Sergius Witte, the Russian peace envoy in an interview published today by the Herald. "The two great countries of the world," he continued, 'are Russia and the United States. They are the two great countries of the world, because they both produce men and material. This is the secret of any nation's success."

Asked if he thought Russia's commercial condition had been bettered or injured by the war, Mr. Witte said:

"Russia is better now than she ever was. After the war she will get on her feet again and when she gets on her feet it will be a firm and strong position that she takes. We have the men, the money and the people. We have the greatest undeveloped country that exists. Our climate ranges from the tropics to the arctic.

"It is a very delightful thing to have a country so much like our own to step in and act as the intermediary. I do not care to speak about the trouble or the future results. That is a matter which is entirely diplomatic and official, but I do feel very great kindness for the American people outside of all official relations. We came here as friends, and we were received as guests. We are still in that delightful condition."

"Russia," said the envoy, in discussing the reports of internal troubles there, "is a much misunderstood country in America. America is so far away, so remote in all the possibilities of our national life, that exaggerated reports become current here. It also happens that we of Russia have erroneous reports about the United States. We are told of your lynchings, your riots, your popular uprisings. In St. Petersburg we appear to your statesmen here in the same position. Still, I think it is only fair to look at the two troubles in social economics with an eye-glass which reaches 5,000 miles. I certainly do not intend to state that the Russia civil life is perfect. I presume you do not intend to state that the civil life of America is perfect. We both have our faults. We both, I trust, are striving to overcome or obviate them."

BERLIN FIGHTING PLAGUE.

Sanitary State of Sieze Exists in Germany's Capital.

Berlin, Sept. 9.—A sort of sanitary state of siege exists in the district that now extends from the River Odor northeastward to the Russian border, about 250 miles and from Dantzig to Grodzisco, south of Posen, about 150 miles. But it is a state of siege in which all the inhabitants are auxiliaries of the medical authorities and the only enemy is the terrifying cholera bacillus which is travelling in the streams or moving slowly overland from one locality to another attached to articles of use or in the system of persons.

The only friends of the bacillus, the doctors, proclaim is ignorance, and they say to the thick popalations of this region: "If you do not want to die, do as we say. Do not bathe in the rivers. Death is there. Do not hide from us the suspicious illnesses of the members of your families for fear we may take them away to a hospital and put all who have been near the sick person under irksome observation. Do not be afraid and get into a panic."

Gaynor and Greene's Trial.

Montreal, Sept. 9.—Arguments in the Gaynor and Greene habeas corpus proceedings were concluded Thursday. Donald MacMaster, acting for the United States government, argued that Mr. Taschereau's contention that the committal is valueless because the offenses named are contradictory, is not sound. Mr. MacMaster cited precedents showing it has been held in Great Britain, that it is within the powers of a judge hearing habeas corpus proceedings to restrict the offenses named in the committal the intent not being to set obstacles in the way of extradition, but at the same time to protect the rights of the person sought to be extradited. Justice Ouimet said it would be some time before he will give his decision.

MISQUITOES WORSE THAN YELLOW JACK

The Little Pests Greatly Worry New Orleans Citizens.

22 NEW CASES; TWO DEATHS

The Condition of the Fever in the Country Districts Is Steadily Growing Better and New Orleans Has the Plague Under Control.

New Orleans, Sept. 9.—Up to noon today there were 22 cases of yellow fever and two deaths.

New Orleans, Sept. 9.—With only one death reported early today and the normal number of cases from the early morning report of the physicians, the yellow fever situation continued to bear a favorable aspect here today. The death occurred yesterday but the certificate was issued too late to be included in yesterday's total.

Dr. Brady returned today from a trip to Plaquemines parish. He found thre cases of yellow fever at Woodland, a settlement of 300 people, about 25 miles below New Orleans.

Previously there had been one death and there were nine convalescents. The infestion came from the DuMaine street district in New Orleans.

Fair weather prevailed today and the forecast was for its continuance. There was a rising temperature.

Busy Killing Mosquitoes.

Though many have disapeared enough of the solicitans mosquitoes, which invaded the city two days ago, remain to make life intensely disagreeable, the insects constituting more of plague than the fever itself. The reason given for the stay of this mosquito is that all the salt and oil has been washed from the gutters by the recent excessive rains and the weather being still too unsettled to permit of doing the work over again. While, however, the whole city has been made miserable, Health Officer Kohnke looks upon the matter philosophically.

"I believe," he said, "that the salt marsh mosquito has been blown in upon us for a special purpose to make us fumigate and kill him. He will not last more than ten days."

Conditions in the Country.

Conditions in the country show improvement here and there. No new points of infection have been reported and the disease is being held in check or wiped out in other sections. There has been no recrudescence at Bayne, Shreveport or Bon Ami, and there are no new cases at Bunkie or Alexandria. Tallulah, Lake Providence, Patterson and Leeville are now the points most infected.

Dr. Tichenor reports that there are 37 positive cases at Tallulah, that the infection is distributed all over the town, that the condition is serious and that it will take strenuous efforts and prompt assistance to stamp out the disease. A reassuring factor at Tallulah, however, is that the disease has shown no signs of Great virulence.

At Leeville the average of new cases eighteen days ago was 12. It is now four.

At Leeville 16 persons who have not yet had the fever, so that the material for new cases is not abundant. At Patterson while there is a batch of new cases daily, the doctors have be taught so well how to handle them that most of them are recovering.

At the beginning of the campaign here it was stated by the official fever fighters that the stegomyia was to be feared principally during the daylight hours, biting seldom at night. Health Officer Kohnke, however made thi simportant statement today:

"The stegomyia is a day mosquito, but it has recently been discovered that shortly after the twelve days' infection it also becomes a night mosquito and bites at night. We did not know this until very recently."

In connection with the investigations that have been in progress here concerning the origin of yellow fever, Professor Beyer, who was a member of the United States commission which made the experiments at Vera Cruz, made an important announcement today.

"I believe we are about on the road to the discovery of the cause of yellow fever," said Professor Beyer.

Camps Have Become Useless.

With regard to the closing of the detention camps, Dr. White has given the following to the press:

"I wish to say that the usefulness of these camps has almost entirely ceased, because of the refusal of local boards of health to admit parties even after they had spent the full period in a detention camp, and it is manifestly irrational to expend time and money in detaining people who would not be allowed to enter places to which they might wish to go."

No Fever at Corinth, Miss.

Jackson, Miss., Sept. 9.—Secretary Hunter of the state board of health, this morning received a telegram from the expert sent to Corinth last night to examine the suspicious case of fever there, saying that it was malarial and not yellow fever.

Tennessee Troops Go Home.

Tracy City, Tenn., Sept. 9.—The larger portion of the Third Tennessee regiment companies now here will begin the homeward movement Friday. Orders to that effects have been issued by Colonel C. F. Spence. A detachment of men sufficient to meet any ordinary emergency will remain here and will maintain the camp in such shape that it will accommodate 1,000 men in instant call, should they be needed here again. The regiment has been at Tracy City since Aug. 28, having been ordered there in anticipation of rioting in consequence of the work of assassins on Aug. 24., when an attempt was made to reopen non-union coal mines there, and two men were killed.

Typothetae Commences Fight.

Niagara Falls, N. Y., Sept. 9.—The United Typothetae of America has unanimously adopted a resolution by which its members pledge themselves singly and collectively to resist any movement on the part of the International Typographical union to bring about an 8-hour day. The resolution as adopted maintains the right of each member to keep open shop. The use of the union label was counselled against, and members were urged to refuse to use it. Some members of the Typothetae say they will begin the struggle with the Typographical union by throwing their shops open immediately.

Completing Work on Road.

Bowden, Ga., Sept. 9.—Colonel L. B. Parker, president of the Bremen and Southwestern railroad, authorizes the statement that the contract has been let for the completion of the work on the road to the Missouri Construction company, of which C. W. McCrea is vice president and general manager and the work is to be finished to this place by Dec. 10. Mr. McCrea, with a large force of hands, teams and working equipment, is completing a contract on the Atlantic and Birmingham, is located at Oglethorpe and expects to remain in this part of the country as long as he can get work.

Naphtha Works Are Burned.

Tiflis, Caucasia, Sept. 9.—All the naphtha works at Baku have burned and all the factories and works there are closed. The military authorities are hastening measures to cope with the desperate situation at Baku. Artillery has been dispatched from here by special trains. Prices of benzine, kerosene and their residues have risen enormously. The present supplies will be exhausted in a few days. The Tartar movement in northern [illegible] said to be directed prin[illegible] against the government.

Frenchman Ordered to Leave.

Caracas, Sept. 9.—The following governmental decree was issue Thursday: "Whereas, M. Brun, manager of the French Cable company, has protested before the national government against the decree closing the overland and coast offices of the company, and, whereas, this action shows that M. Brun is ignoring the laws of the republic, the president decrees that the said M. Brun be expelled from the territory of the republic."

FATHER'S HEROISM IS FUTILE.

Attempted to Save His Two Children From Fire and All Perished.

New York, Sept. 9.—While trying to save his two children, a boy and daughter, both under ten years of age from a fire in a crowded tenement building, in East Seventy-[illegible] street early today, Antonio Colletto and two children were suffocated by smoke.

The body of the father was found in the hall way on the fifth floor with the bodies of the children clasped in his arms.

Colletto had already helped his invalid wife to the street and she escaped to an adjoining building.

There were 24 Italian families in the building, and all of them were asleep when the fire began in the basement and spreading to the hallway on the first floor, cut off all escape from the floors above. A policeman awakened the sleeping tenants, who escaped down the fire escapes in the front and rear of the building.

Fairbanks Visits Roosevelt.

Oyster Bay, L. I., Sept. 9.—Vice President Fairbanks was the guest today of the president and Mrs. Roosevelt, at Sagamore Hill. The vice president had arranged to come with Ray accompanied by Mrs. Fairbanks but owing to a sudden illness and disposition of Mrs. Fairbanks she was unable to make the trip. The vice president was met at the station by a confidential friend of the president. He was driven to the president's home in time for luncheon.

Home for Letter Carriers.

Portland, Ore., Sept. 9.—All the members of the Letter Carriers association who may become victims of tuberculosis will be sent to Colorado Springs, Colo., the people of that city having donated a site of [illegible] of land adjoining the Home for Union Printers.

SURVEYING CORPS HARD AT WORK

Excellent Progress Has Been Reported From the Field.

THE WORK WILL BE PUSHED

A Permanent Line Will be Established Within Thirty Days, When Cutting Right-of-Way and Grading Will Begin Immediately.

The surveying and engineering corps of the Gainesville and Gulf Railroad, under direction of Chief Surveyor Patton, are now in the field and report fine progress. The corps, which comprises twelve people, began southward from Fairfield Wednesday morning, and are pushing rapidly towards Tampa, the proposed southern terminus of the road. The corps is accompanied by A. P. Stuckey, first vice-president of the new organization.

As has been stated before, Mr. Stuckey will have run several preliminary lines, after which a permanent line will be established and work of cutting right-of-way and grading will begin.

Orders have been placed for all necessary rails, and the first shipment of several hundred tons has been promised the 15th inst. The cross-ties are also being hewn, and within thirty days it is safe to state that the actual laying of iron will begin, as it is the purpose of the constructor to keep the track worked up to the grading point as near as possible.

About twenty days will be required to complete this survey, immediately after which a line will be established.

The people of the sections which this extension will traverse are naturally jubilant, as it will open up a country rich in timber and phosphate which has not been worked before on account of lack of transportion facilities. The road will also touch several of the most prosperous towns in Florida.

Are You Engaged?

Engaged people should remember that, after marriage, many quarrels can be avoided by keeping their digestions in good condition with Electric Bitters. S. A. Brown of Bennettsville, S. C., says: "For years my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once and finally made her entirely well. She is now strong and healthy." Sold at all drug stores and guaranteed, at 50c a bottle.

MEETING OF COUNCIL.

Passed Ordinance Empowering Fixing of Water Rates—Other Business.

The City Council held an adjourned meeting Thursday night, at which some unfinished business from the meeting of Monday was disposed of.

The council passed an ordinance granting a right to fix water rate upon the meter system, which was unanimous, and passed to its second and third reading with few amendments.

The resolution of last meeting directing the water committee to make certain improvements and alterations at the waterworks plant, was rescinded, and a resolution was passed to the effect that the water committee be instructed to make necessary excavation to connect pumps as they now stand with the newly discovered source of supply, that the suctions be extended to such new source, and that it be demonstrated the practicability of pumping direct from the new source.

After the transaction of minor business the council adjourned.

Attacked by a Mob

And beaten in a labor riot, until covered with sores, a Chicago street car conductor applied Bucklen's Arnica Salve and was soon sound and well. "I use it in my family," writes G. J. Welch of Tekonsha, Mich., "and find it perfect." Simply great for cuts and burns. Only 25c at all drug stores.

OLD SORES

ROOTED IN THE BLOOD

Old Sores are the result of a deeply polluted, foul blood supply. The blood is filled with poisons, and as it finds an outlet through the ulcer, the surrounding parts become diseased and the sore eats deeper into the tissues and flesh and becomes a permanent trouble.

Some years ago while at work, I fell over a truck and severely injured both of my shins. My blood became poisoned as a result, and the doctor told me I would have running sores for life, and that if they were closed up the result would be fatal. Under this discouraging report I left off their treatment and resorted to the use of S. S. S. Its effects were prompt and gratifying. It took only a short while for the medicine to entirely cure up the sores, and I am not dead as the doctors intimated I would be, neither have the sores ever broken out again, and some twelve years have elapsed since what I have described occurred. Having been so signally benefited by its use I can heartily recommend it as the one great blood purifier.

Care Schmulback Browing Co.

Salves, powders, plasters, etc., do no good, and the sufferer gets disgusted and often despairs of curing an old sore. The trouble is in the blood and until the poisonous matter that is keeping up the ulcer is driven out the place cannot heal. S. S. S. reaches these old sores through the blood by removing every particle of poison or impurity from the circulation and building up the system. It makes the blood healthy so that as it circulates to the diseased parts the tissues are strengthened and the sore can heal naturally and permanently. If you have an old sore or ulcer do not waste time with salves, powders, plasters, etc., but write for our book and ask for any medical advice you wish. We make no charge for either.

LOCHLOOSA LACONICS.

Cotton Coming in—Heavy Downpour of Rain—Personal Mention.

Lochlooosa, September 8.—R. J. Tompkins of Leesburg has recently moved to our flourishing little town, and is going to put up a wheelwright and blacksmith shop here.

Miss Lillie McGahey returned to Miami Wednesday, where she will take a school.

Mrs. R. A. Hendrix of Largo returned to her home Saturday, after a long visit to her parents.

A. O. Strickland of Port Arthur was a visitor to our flourishing city Tuesday.

Mrs. Cribb and two daughters returned home Wednesday, after a day's visit to Mr. and Mrs. E. O Upthegrove.

We had an awful rain here Sunday. It rained about eight inches.

Mr. and Mrs. A. K. Wade made a pleasant visit to the sulphur springs Wednesday evening in their nicely arranged little steam launch.

P. A Barker has returned from a flying trip to Plant City.

Cotton is rolling into market now. It opened up at four and one-half cents per pound.

P. J. Warley's wood rack on the Seaboard Air Line has been lying dormant for quite awhile, but has started up again.

Albert McEwen has returned home from a visit to Gainesville.

A Clear Complexion and Bright Eyes.

In most cases a sallow, blotched complexion and dull heavy eyes are due to poor digestion and an inactive liver. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels and makes the complexion smooth and clear. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. J. W. McCollum & Co.

TEACHERS' EXAMINATION.

Applicants for First, Second and Third Grade Certificates Finished.

The examination of applicants for positions as teachers in Alachua county, which has been progressing since Monday, came to a close Thursday night. The applicants for second and third grade certificates finished their work Thursday, and the first grade concluded Friday.

There were thirty-one white applicants and two colored. The examination of the former was conducted at the Seminary under direction of Miss Serena Shannon, while the colored applicants were examined by Prof. M. H. DeLand at Union Academy.

Devoured by Worms.

Children often cry, not from pain, but from hunger, although fed abundantly. The entire trouble arises from inanition; their food is not assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, very much to the surprise and joy of the mother. Sold by W. M. Johnson.

BUILDING NEW STORES.

S. H. Benjamin Still Has Confidence in Micanopy and Its Future.

S. H. Benjamin of Micanopy was among those who paid this city a visit Wednesday.

Mr. Benjamin a few months ago had the misfortune to lose his store and all its contents by fire. It was one of the largest and finest stores in the county, and the loss was a serious one, aggregating in building and stock about $35,000.

But Mr. Benjamin still has confidence in Micanopy and its future. He has decided to rebuild, this time a finer structure than ever, and is now clearing the lot for the erection of an elegant brick block which will contain three stores.

Mr. Benjamin believes that this section is now in better condition than ever, in so far as the fruit products are heavier than they have been for years, and the farmers are prosperous as a rule, which makes money plentiful.

The Original.

RESIDENCE NEARLY COMPLETED

Col. John B. Dell Will Have One of Handsomest Homes in City.

The elegant home of Col. John B. Dell, East Gainesville, which has been in course of erection for the past five or six weeks, is almost completed and within a short time will be ready for occupancy.

This will be not only one of the most modern in architecture, but one of the most comfortable homes in the city, and will be a credit to the owner. Col. Dell already owns desirable property in East Gainesville, Roper avenue, which he and his family are now occupying, and it is supposed that the new building will be for rent.

Beautiful Women.

Plump cheeks, flushed with the soft glow of health and a pure complexion, make all women beautiful. Take a small dose of Herbine after each meal; it will prevent constipation and help digest what you have eaten. Mrs. Wm. M. Streud, Midlothian, Tex., writes, May 31, 1901: "We have used Herbine in our family for eight years, and found it the best medicine we ever used for constipation, bilious fever and malaria." Sold by W. M. Johnson.

Micanopy's New Industry.

Micanopy is to have a new enterprise in the nature of a moss cleaning establishment by A. U. Hilleary, and as Mr. Hilleary is a fine business man and a hustler there is no doubt but that the venture will pay. Mr. Hilleary was in the city Friday and stated to friends that he proposes to establish the moss mill at once.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

HORRIBLE DEATH OF MISS FANNIE WEEKS

Fell Into Boiling Spring in Yellowstone Park.

WELL KNOWN IN GAINESVILLE

Was at One Time a Member of Faculty of East Florida Seminary, and Had Many Friends—A Sudden Ending of Life of Noble Lady.

An Associated Press dispatch from Livingston, Montana, under date of September 6, tells of the awful death of Miss Fannie Weeks. Miss Weeks was at one time a member of the faculty of East Florida Seminary, and was well known by many of our people who will regret to learn of her sudden death and its cause. The telegram is as follows:

"Miss Fannie A. Weeks, aged slightly over fifty, of Washington, D. C., is dead in this city from the effects of falling into a boiling spring in the Yellowstone National Park several days ago. In company with other Eastern tourists, Miss Weeks was making a tour of the park, and while viewing a geyser, stepped backwards in an effort to dodge the blinding spray of the spouter, and fell into a hot spring in which the water was fairly bubbling. Her body was literally cooked from the waist down, and death ensued after a period of intense agony. Miss Weeks was a native of Gainesville, Fla., where she has relatives. At one time Miss Weeks was stenographer to former Senator Call of Florida, but at the time of her death held a clerkship in the Treasury Department."

IMPORTANT DECISION.

Espanola Lumber Company Case, Referee Palmer is Sustained.

The readers of The Sun will remember that a short time ago we gave a detailed statement of the matter of the Espanola Lumber Company, in bankruptcy.

Under an order of the referee, W H Palmer, the estate of the bankrupt was sold and the money, about $19,000, has been lying in the registry of the District Court in Jacksonville since the sale. Immediately after the sale a petition was filed with the referee praying, among other things, that the said money be applied on a mortgage indebtedness of $15,000, rather than be distributed pro rata to the general creditors of the bankrupt.

To the petition of the mortgagee the trustee filed an answer, denying the right of the mortgagee to said funds, thereby creating an issue under the bankrupt act. The referee, after taking the proofs in the case and hearing the arguments of able lawyers both for and against the petition, dismissed the petition on the ground that the mortgagee was a preferred creditor and that a preference could not be maintained, to the exclusion of other liabilities of the bankrupt, under the bankruptcy law of 1898 as amended by an act of Congress of 1903.

From the decision of the referee an appeal was taken to the United States District Court for the Southern District of Florida. The District Court has recently reviewed the case, and on Thursday, September 7th, the referee was advised that his act in dismissing the petition was affirmed. The petitioner can prosecute an appeal to the Circuit Court of Appeals, if he so elects, otherwise the funds will be distributed pro rata by the bankruptcy act.

THREE JURORS CURED

Of Cholera Morbus With One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. W. Fowler of Hightower, Ala., writes an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says: "While there I ate some fresh meat and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead saying that he had what I sent for and that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one small bottle cured the three of us." For sale by all druggists.

HAPPENINGS OF MONTEOCHA.

Cotton Crop Will be Light—Notes of Personal and General Interest.

Monteocha, Sept. 7.—C. C. Hudson, salesman of Baker & Holmes of Jacksonville, was here on business Friday last.

O. W. Maines reports fourteen bales of cotton ginned at his gin. He says he ginnd 220 bales last year, when he won't gin over 100 this year. That shows the crop is off some. The farmers of this section say that there will be no cotton in the fields by December.

The rains have got all small bridges floating around here.

Dr. J. E. Maines of Waldo was here on business Monday. He reports quite a lot of practice for a new doctor in his town.

Geo. Dyal, a neighboring ginner, reports fourteen bales of cotton ginned at his gin. He says cotton is off in that section.

Mr. and Mrs. A. F. Baines of Cyril, who have been visiting relatives in Virginia, have returned home.

C. Brinkley of Jacksonville, also a member of the firm of Brinkley & Baines of Cyril, has returned home from Cyril, where he has been on business.

D. V. Maines, a merchant near Atlas, passed here en route to Gainesville Tuesday.

Corn pulling takes the day here now.

The team of R. J. Andrews passed through here Monday evening with one of the famous Doig gins, which Mr. Andrews will add to his ginnery.

Quite a crowd from here attended church at New Hope Sunday.

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostrate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostrate gland and kidney trouble for years, and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." J. W. McCollum & Co.

Kirby Smith Chapter.

Kirby Smith Chapter, United Daughters of the Confederacy, held an interesting meeting at the home of Mrs. H. H. McCreary, Thursday afternoon, at which a great deal of business of importance was transacted.

Mesdames J. N. Strobhar, H. H. McCreary, M. E. Tinsley, and Misses Alice Thomas and Maud Graham, were appointed delegates to the National convention, which will meet in Los Angeles, California; but owing to the great distance none of these ladies can attend, to their regret, and the Chapter passed a unanimous resolution delegating the State president, Mrs H. E. Stockbridge, to cast the vote of the Chapter.

Amendments to the National constitution were read and discussed after which the meeting adjourned.

Chamberlain's Cough Remedy Aids Nature.

MARRIED TWENTY-FIVE YEARS

Dr. and Mrs. J. B. Curtis Celebrate Their 25th Wedding Anniversary.

Dr. and Mrs J. B. Curtis of Orange Heights, together with a large per cent of the one hundred invited guests, celebrated the 25th anniversary of their marriage on September 7th, at their home. The house of Dr. Curtis is situated in a fruiting pecan grove—an ideal place of residence for a king or czar. At 3 o'clock p. m., the designated hour for the arrival of the guests, they led their way through the shady grove to the house of host and hostess, where the words "Welcome" were indelibly stamped on the faces of the Doctor and his estimable wife.

To simply say that the house, with its broad verandas, was beautifully decorated, is giving a faint idea of its interior and exterior.

The refreshments, consisting of punch, ice cream and heart-shaped bonbons, were furnished by Caterer Till of Jacksonville, while the other viands, too numerous to mention, were prepared by the hostess, assisted by Mesdames W. H. Palmer and H. S. Graves of North Gainesville.

The presents were many and of great value, all of which were highly appreciated, one being quite a novelty and consisting of twenty-five silver dollars. At a late hour the guests departed, each declaring it the event of the year, and wishing the host and hostess a life of other like occasions.

The Doctor and wife were married at Bowdoingham, Maine, but have been residents of Alachua county for many years and have a host of friends and neighbors who wish them all the blessings of this life.

Like Finding Money.

Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat, or chest irritation, better act promptly like W. C. Barber of Sandy Level, Va. He says: "I had a terrible chest trouble, caused by smoke and coal dust on my lungs; but, after finding no relief in other remedies, I was cured by Dr. King's New Discovery for consumption, coughs and colds." Greatest sale of any cough or lung medicine in the world. At all drug stores; 50c and $1; guaranteed. Trial bottle free.

REAL ESTATE DEALS.

Dirt Seems to Move Lively in North Gainesville—Important Sales.

The bustling suburb of North Gainesville is never to be outdone in any instance, real estate transfers not excepted. There have been several important transfers within the past few weeks, which indicates the prosperity of that section, and among the most important was the sale of seven and a half acres by A. O. Steenburg to Attorney W. H. Palmer. This property is situated on the Hog Town creek road, a few rods west of the home of Col. I. E. Webster, and is among the most desirable in that neighborhood. Mr. Palmer will likely divide the land into building lots and place it on the market. Mr. Steenburg has also purchased four lots from Mr. Palmer.

G. W. Perkins, an industrious colored man, has purchased a lot, and will erect a neat home.

The Chronic Croaker.

Editor Sun: A chief nuisance of a farming section is a chronic "croaker." He is found everywhere, and his business in life is to throw a damper over all things and everybody. He in general possesses all the knowledge about everybody and everything in his neighborhood, and the reason the grass grows in his own field is because he spends too much time looking into and discussing his neighbors' affairs. He always has a reason or an excuse for his own misfortunes, and can pile you up calamity howls mountain high.

A good sample of this pestilent class is among ourselves, and he is greatly disappointed when the results of his prediction turns out the reverse. "Live and let live" is good advice to him

THE YELLOW FEVER.

Eleven New Cases in Pensacola—New Orleans List.

Pensacola, Sept. 9.—The outlook assumed a different aspect yesterday evening, when 11 new cases were reported. The forenoon was encouraging, but the doctors did not all report until late. The two additional deaths, making three and 28 cases, have caused many to leave town. A temporary hospital has been established. C. P. Winters of Harrison, Ohio, recently discharged at Fort Barrancas, was one of the victims.

At New Orleans.

New Orleans, Sept. 9 —From 6 p. m. yesterday to noon today there were 16 new cases and four deaths. The total number of cases to date, 2,237; total deaths, 309. Several new cases are reported from the country towns, and one death at Patterson.

FIGHTING CONTINUES AT BAKU.

Consulates, Banks and Government Buildings Heavily Guarded.

Baku, Caucasia, Sept. 9.—Street fighting continued until late last night. The consulates, banks and government buildings are guarded by troops.

Balakhan was completely burned out after the Tartars had plundered it of everything valuable, although shot down in masses by the artillery, the Tartars were not deterred from their work of wreckage and looting.

Fierce fighting and great slaughter occurred at the Balakhan hospital, where a thousand Armenians and workingmen gathered. General Shirinkin sent a detachment of artillery with three guns to the scene and the commander of the detachment summoned the crowd to surrender. The latter replied with volleys of stones, and some shots, which killed one of the gunners.

The commander of the troops thereupon opened fire. The first discharge of the three guns miscarried, the shells falling into th e sea, but the second discharge sent the shells crashing into the hospital where they exploded and killed an immense number of men and wrecking many buildings.

The maddened crowd charged the guns and captured them after deluging the gunners with burning oil. The latter fled. Cossacks and infantry reinforcements attempted to recapture the abandoned guns, but were driven back by the suffocating smoke.

TEXAS MOB BURNS NEGRO.

He Confessed to Outrage on Prominent White Woman.

Waxahachie, Tex., Sept. 9.—Steve Davis, a young negro, who confessed to outraging Mrs. S. P. Norris, aged 20, last Saturday night, was burned here.

A mob consisting of 2,500 persons tied the negro to a piece of gas pipe that had been driven into the ground, piled fagots around him and set the mass of brush on fire.

The sufferings of the negro were of short duration, owing ta the fierceness of the fire, which was fanned by a gale of wind which blew across the prairie.

The husband of the woman is said to have applied the lighted match to the tinder and started the blaze that consumed the negro.

Davis was arrested last Tuesday and taken before the woman, who at that time was not sure it was he. She had been desperately ill from her ordeal. Later he was again taken before the woman, who on sight of him fainted.

When she revived she identified him, and his fate was sealed. The negro finally confessed, detailing the crime.

This is the third negro that has been burned at the stake in this section of Texas, within a short time. One of these was lynched at Sulphur Springs and another at Waco.

Georgia Town Will Be Dry.

West Point, Ga., Sept. 9.—Recently Mrs. G. W. Poer, assisted by Mrs. J. D Johnson and Mrs J. M. Poer, went to the mayor and council in behalf of prohibition. After having secured a petition, signed by about three-fourths or more of the tax-payers of the town, asking that the mayor and council refuse to grant license to sell liquors after the expiration of the present year, quite a number of temperance workers presented the same to this body in the general chamber. The mayor and council granted the petition.

S. H. WIENGES,
Clerk Circuit Court.

Judge Pinnell filed suit Monday against Levy county for Marshall, Bruce & Co. This suit is for some things purchased by H. S. Sutton while he was sheriff. The county's records show this claim has been paid, but the system of burning the paid warrants instead of preserving them, and the practice the county treasurer has made of paying these warrants without requiring the payee to indorse them, will be the means of the county's having to pay it again.

PRIVATE REFRIGERATORS TO GO

Advices come from Washington that private car lines owned by the packers will be driven out of business, as the result of the agitation against them and the investigation conducted by the Interstate Commerce Commission with a view of prosecuting them for violating the anti-rebate law, says The Farm and Stock Journal.

Notice has been served by the Commission on all the railroads which have exclusive contracts with private car lines, that the trunk lines will be held responsible by the government for the giving of reasonable rates where goods are transported in the cars of the private lines.

This notice seems to have had the desired effect, and several lines have announced that they will not renew their contracts with the private car lines, and that they will provide their own cars for the transportation of perishable products and that the icing charges will be reduced by about one-half. In view of these promises immunity from punishment has practically been promised the roads for past violations of law if they live up to the promises they have made regarding the establishment of their own lines and the reduced rates. If the fight against the private car lines is practically won, which is said to be the belief of the Commission, much has been accomplished for the producers of perishable products. It was the discrimination in rates for dressed carcasses that enabled the great packing houses to hold a complete monopoly of the butchering business. With a square deal in freight rates, independent and local packing establishments can be maintained, and the producers and consumers of meat will soon have the benefit of wholesome competition. The merits of the vigorous kickers will yet be recognized.

SOLDIERS' PENSIONS.

The State Pension Board is at present hearing claims of persons applying for pensions at Tallahassee, and although there are 3,000 names on the roll, many claims are being presented, quite a number being groundless. A soldier or his widow who has real or personal property to the amount of $800, or who is able to earn a livelihood, or has an income from any source sufficient for support, cannot receive a pension.

Soldiers of the Confederate army who were bona fide citizens of the State January 1, 1885, who have since continued to reside here, who lost a limb or eye, or otherwise were disabled, or who are 65 years old, are entitled to receive $100 per year for total loss of sight, or for loss of both hands, or both feet, or one hand and one foot.

For personal injuries, disease or age, where the soldier is unable to gain a livelihood by manual labor, $96 a year is granted.

From July 1, 1903, the widows of deceased soldiers or sailors, who honorably served during the State service, shall be entitled to receive the sum of $96 per annum in quarterly payments; provided, that such widow was lawfully married to such deceased soldier or sailor prior to January 1, 1885; and provided, such widow was a resident of the State of Florida on January 1, 1890, and has since continuously resided therein; and provided, further, that no widow who owns property, real or personal, or real and personal, to the value of eight hundred dollars, shall be entitled to the provisions hereof. The provisions of this act shall not apply to any widow after her remarriage.

POSTAL TELEGRAPH.

The Postal Telegraph Company is certainly up to the times, and the recent action of this company toward its employes is worthy of commendation. During the fever troubles which have infested the South they notified their employes that to all who remained at their post of duty during the period that yellow fever exists, an advance of 20 per cent in salaries would be given. The increase includes all, from manager down to messenger boys.

The company will also pay all expenses of any employe who is taken ill with the fever, including nurses, physicians, medicines, and in addition will carry the stricken party upon the pay roll until he recovers.

This company has offices at several cities in Florida, and it is expected that in a short time it will establish offices in Gainesville. It has established a cable service that makes it an important factor in business transactions.

Marianna has a committe appointed and will sanitate.

COTTON GROWERS.

The establishment of a minimum price for the coming crop of cotton, the compilation of accurate statistics direct from the grower, the enlargement of the association's scope, and the discussion of present conditions in the cotton world, are the objects of the Southern Cotton Growers' Association now in session at Asheville, N. C.

The talk of a minimum price, whether at 11 or 12 cents, is a question that will be discussed at length. But it is certain that many delegates will hold out for 12-cent cotton, on the basis of a decline in production from last year's crop of 14,000,000 bales. All the meetings, except the executive sessions, will be held open to all.

The cotton industry of the South is one that should command the careful attention of all growers, and there should be a thorough study made of its culture and an effort made toward an improvement of the fiber, both in fineness and length. In every other industry there has been advancement and improvement, either from the use of fertilizers or selection of proper soil, while cotton has been neglected, except, perhaps, in a few instances, where someone has succeeded in producing a higher grade for fine quality, strength and purity of whiteness, that finds a ready market at advanced prices in the countries of Europe, where it is woven with silk and produces a grade of goods that makes it of much more value than to be used in cheap cotton goods.

JUST INDIGNATION.

What was thought a joke in regard to the Chinese boycott of American trade is looming up larger and more serious. It looks like a foretaste of what may be expected from the "awakening to civilized methods" that we are more than eager to subject China to. The more she becomes like other nations, the less inclined she will be to submit to what other nations would not tolerate. Our exclusion of Chinese immigrants simply because they are Chinese, is a policy that no other nation would submit to and keep on friendly terms with us; and China is entitled to respect for her present resentment.

Our exclusion of a people on account of nationality alone is indefensible. Exclude the unfit—so far as possible—by all means, but let it apply to all nations; let individuality be the test and not nationality, then no nation can complain. Millions of individuals have come into the country since the Chinese exclusion act, of much less average desirability than the Chinese would have been, and are still coming without protest, and so far as we can see, without injury to the country. There is no warrant for fear of a deluge of Chinamen. They are not a migratory people. When they could come here freely they came in much smaller number than European races from countries much less densely populated than China.

The sixty-year-old chaps are some good after all, according to the following account of an old sea captain: "The other night Capt. Wade Bell, of the steam barge Taylor, fell overboard from his vessel twelve miles off shore near Laurel, Del. No one saw the Captain fall, and the noise of the machinery drowned his calls for help. Seeing that he was being left, the Captain took his bearings and struck out for shore, twelve miles away. After an hour he made out a lighthouse, which confirmed his reckoning, and he swam on bravely. Two hours more his feet touched the shingle and a wave rolled him up on the beath, exhausted but alive. After resting on the sand until daylight, he walked to a settlement and got something to eat. Does that look as if the man of sixty has no vitality left?"

Two smart youths were in a boat with a third party who could not swim and persisted in rocking the small craft "for fun" although being implored to stop. The boat was capsized and the man who could not swim was drowned. The jokers will be tried for involuntary manslaughter, and they should have a good term in the penitentiary.

The labor conditions of the country are beginning to look a trifle blue. The coal strike, the printers' demands and other troubles may cause much annoyance. Arbitration is the only hope.

Cripple Creek is now digging out two million dollars per month of gold from one camp. Not such a cripple after all.

SIX PEOPLE ARE KILLED IN WRECKS

One Occurs In Tennessee; the Other in Pennsylvania.

MANY OTHERS ARE INJURED

The Tennessee Trains Met on a Trestle—The Pennsylvania Trains Met on a Sharp Curse—Engines Demolished and Rolling Stock Damaged.

Odion, Tenn., Sept. 8.—Four trainmen were killed and three seriously injured in a collision between two freight trains on the Illinois Central railroad near here early today.

The dead are:

A. H. Williamson, engineer.
M. E. Smith, fireman.
J. H. Lewis, negro brakeman.
Noah McFadden, negro brakeman.

Those who were seriously injured are:

S. D. Armstrong, engineer.
W. S. Stevenson, fireman.
S. H. Cook, flagman.

The two trains met on a trestle immediately south of the Odion yards. The engines were badly wrecked and several cars left the track.

Wrecking trains have arrived at the scene and through traffic was opened at noon.

Two Killed in Pennsylvania.

Newcastle, Pa., Sept. 8.—A collision of express trains on the Western New York and Pennsylvania railroad at Wilmington Junction, 10 miles north of here, is reported.

The latest news from the scene of the wreck is that only two were killed and a score or more were injured. The dead are:

William Barnhart, engineer.
Fireman, name unknown.

At this time it is impossible to give the list of injured, but it is said that a number from this city were among them. All the ambulances in Newcastle and medical assistance has been summoned and the injured will be taken to a hospital here about noon.

The trains in the collision were an extra passenger from this city loaded with excursionists bound for the Stoneboro fair, and the regular passenger train from Stoneboro which is due to arrive here at 9:30 a. m.

The trains met on a curve, but the cause is yet unknown.

DISPENSARY FIGHT WAXES HOT

Investigation Committee Probing the Charges Against Officials.

Sumter, S. C., Sept. 8.—The most important item brought out at the dispensary investigation was that state dispensary officials supported Talbert for governor against Heyward in the campaign of 1902.

A letter was read from L. J. Williams to dispensers, written on official letter heads, urging them to work for Talbert. Williams was then chairman of the board of directors of the state dispensary, and afterwards ran for congress from the second district and was defeated. Davis, ex-dispenser at Florence, now bottle buyer, testified his salary was $75 per month, and that he made that much on the side selling empties. This is illegal.

Wilkes, ex-dispenser at Darlington had a drinking platform arranged in the rear of his dispensary. He had a corkscrew and bottle opener there and had the following sign at different places in his dispensary:

"Notice: Customers opening and drinking beer on these premises must put empty bottles in the barrel or box. Gordon Wilkes, Disperser."

Gold Mining Companies Merger.

San Francisco, Sept. 8.—The Examiner today says that W. P. Hammond and John Hays Hammond have at last succeeded in bringing about a merger of some of the large gold dredging mining companies in Butte and Yuba counties. The deal has just been closed in New York and W. P. Hammond is now on his way home with the documents. The merger company is to be known as the Oroville Dredging company, limited, and it is organized with a capital of $4,000,000. London, New York and Boston capital is interested in the project. The company will control something like 4,000 acres of so-called gold dredger land.

A Remedy Without a Peer.

"I find Chamberlain's Stomach and Liver Tablets more beneficial than any other remedy I ever used for stomach trouble," says J. P. Klote of Edma, Mo. For any disorder of the stomach, biliousness or constipation, these tablets are without a peer. For sale by all druggists.

Transpiring in "The Land of Flowers." Things "Boiled Down" to Suit the Busy Reader—Items of Interest to All Classes.

Jacksonville will build a substantial jail at once. It's needed.

The cotton crop at Fort White has had so much rain on it that there is danger of it becoming water-logged.

The Georgia Southern & Florida Railroad depot at Palatka is now ready for business, and it is the finest in that city.

Welaka will have a five-ton ice factory in operation by December 1st. W. M. Williams of Crescent City is the promoter.

Chaires is getting to be so tough that the residents want it incorporated, so they can have a marshal appointed to put a stop to the rowdyism.

David Curry was bitten in the right leg by a shark he was trying to land at Fort Pierce, Monday afternoon. He was sent to the railway hospital at St. Augustine.

The Good Roads Convention, which met at Lake City on Wednesday, had a large attendance, and an effort will be made to do something besides talk. Good enough.

An investigation of the books of Ex-County Clerk I. J. McCall of Hamilton county shows a shortage of $2,556.09. The financial records also showed a loose condition of affairs.

Deputy Sheriff Jones arrested Henry Hast, Joe Edwards, Jim Anderson and Will Hollingsworth, four bad black men in Jacksonville, Wednesday night. They are all charged with assault to murder.

During a thunderstorm on Tuesday lightning struck W. L. Pickett's stable at Fort Meade, killing one of his finest horses and injuring another quite severely. One man was shocked and the building slightly damaged.

Owen E. Loadholtz, who was tried at Jacksonville Tuesday on the charge of manslaughter, the killing of Miss May Brown on February 13, was found guilty of aggravated assault. His attorneys gave notice of a new trial.

John Moses is dead and Jim Burney thought to be fatally wounded from the result of a fight near Durbin Tuesday night. After being stabbed several times Burney staggered to his feet and shot Moses, who died in a few hours after. Both are black men.

Mrs. Ruth Freeman of Jacksonville has been found guilty of aggravated assault on the person of Owen Loadholtz. The latter is the man who shot and killed Mrs. Freeman's daughter, Miss May Brown, in Justice Farris' court in Jacksonville last February.

Peace River phosphate rock shipped through Punta Gorda thus far this year aggregated 35,875 tons. Shipments during August were 2,690 tons on steamship Wac, August 2, for Weymouth, Mass.; 1,500 tons on steamship Ingomar, August 5, for Cartaret, N. J.; 1,500 tons on steamship Carolyn, on August 11, for Cartaret, N. J.

The Osceola County Commissioners have offered a reward of $500 for the apprehension and conviction of any persons engaged in or aiding in the cutting of pasture fences or other destruction of property. The Lee-Parsons Cattle Co. offers an additional reward of $500 for the same purpose. This, no doubt, will stop the lawlessness in Osceola county.

Fish Business Sold.

W. Forster, who for the past year has been engaged in the fishing business at Alachua Sink, has disposed of his interests to J. L. Chesser, who will consolidate the same with his own business at the Sink.

Mr. Forster states that he will engage in business at Prairie Creek, his former stand.

Dr. Finn's Testimony Interesting.

Thomas Finn of Boonsboro, Mo., who practiced medicine for 32 years, says he has used every prescription known to the profession for treating kidney and bladder diseases, and says he has never found anything equal to in both chronic and acute kidney and bladder trouble as Foley's Kidney Cure. It stops irregularities and builds up the whole system. J. W. Johnson & Co.

ANOTHER HOTEL.

Mrs. Richard B. Taylor Will Convert Dormitory Into Hostelry.

Gainesville is to have another hotel. Mrs. Richard B. Taylor, for the past year associated with Mrs. Dora Wallace in conducting the Endel Inn, has secured a lease of the East Florida Seminary dormitory, 500 to 506 East Main street N., and will open the same to the public as a hotel at once.

Mrs. Taylor has proven herself a thoroughly competent and popular hostess since she has been connected with the Endel Inn, and since she will now have a more commodious and comfortable building, more conveniently arranged for the purpose, there is no doubt but that she will enjoy a great success. It is her intention to conduct the place upon a strictly first-class basis, catering to the best class of transient and permanent trade.

The dormitory contains thirty rooms, more or less. It is neatly and modernly furnished, and will make a most desirable stopping place for those who, while they prefer hotel to boarding-house accommodations, may enjoy the privilege of a quiet location.

Abscess.

Abscesses, with few exceptions, are indicative of constipation or debility. W. H. Harrison, Cleveland, Miss., writes, Aug. 15, 1902: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. E. Lord's drug store (who is now in Denver, Colo.). He recommended a bottle of Snow Liniment. I got a 50c size, and it cured my leg. It is the best liniment in the world." Sold by W. M. Johnson.

Open for the Season.

The ginnery of H. E. Dutton & Co. has opened for the season, the first bale having been turned out Tuesday.

This ginnery is one of the largest, if not the largest, in the State, and employs many hands, mostly women and children, during the season. The ginnery turned out several thousand bales last season.

I earnestly recommend it to anyone suffering from sprains." Sold by W. M. Johnson.

REGULATE RAILROAD RATES.

United States Senator Culberson, of Texas, Makes Statement.

New York, Sept. 8.—Senator Chas. A. Culberson, of Texas, now in this city, is quoted by the Times as having expressed the belief that legislation on government regulation of railroad rates will be enacted at the coming session of congress.

"I think the Democrats of the senate although I am not authorized to speak for any one but myself, will cooperate with the Republicans who stand by the president in an effort to secure this legislation. The senator continued: "The house passed a bill last session but the senate, owing to delay in the committee on interstate commerce, was unable to do anything. Those who favored delay last session plainly stated that they would agree to take the subject under consideration this winter so that it may be generally anticipated that something will be done."

LEGAL ADVERTISEMENTS.

NOTICE FOR PUBLICATION.

Land Office at Gainesville, Fla.,
August 1, 1905.

Notice is hereby given that in compliance with the provisions of the Act of Congress of June 3, 1878, entitled "An Act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington Territory," as extended to all the public land States by Act of August 4, 1892, Edward F. Fisher of Old Town, county of Lafayette, State of Florida, has this day filed in this office his sworn statement No. 191 for the purchase of the W½ of NE¼ of Section No. 35 in Township No. 10 S., Range No. 12 E., and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before Clerk Circuit Court at Mayo, Florida, on Monday, the 16th day of October, 1905.

He names as witnesses: Nathaniel Dees, W. J. Allen, Isham Copeland, O. M. Tinner, all of Old Town, Fla.

Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 16th day of October, 1905.

E. W. Smith, for many years engaged in farming at Francis, near Palatka, has arrived in the city. He is prospecting, with a view to locating here.

C. A. Beckham of Campville, one of the valued employes of P. H. Baker, the naval stores operator, was transacting business in this city yesterday.

Miss Ruby Hawkins of Alachua, one of the efficient teachers of the county, passed through the city yesterday en route to Tacoma, where she will open the school tomorrow.

J. S. Davis of Orangeburg, S. C., has decided to make a Floridian of himself, and is preparing to erect a saw mill of good capacity at Bland. He was in the city yesterday.

T. L. Robinson and son, Charles, of Melrose were in the city yesterday. Mr. Robinson is manager of the famous Maxwell grove, and says the prospects for a fine yield the coming season are favorable.

Prof. and Mrs. J. H. Owens of Rochelle were in the city yesterday. They will teach the Martha Perry Institute again the coming term, and were here purchasing furnishings with which to go to housekeeping.

George W. Brumley, who, with his wife and baby, has been visiting at his old home, Princesse Anne, Md., returned to the city yesterday. Mrs. Brumley and child expect to remain in Princesse Anne until the latter part of October.

J. W. Williams of Wade, E. A. Kennedy of Brooklyn, Bradford county, and Rev. W. C. Foster of Alachua formed a trio of visitors to this city yesterday. The two latter were here on business with the United States land office.

W. H. Ellis, who has been receiving The Sun at LaCrosse, in a letter requests that the address of the paper be changed to Worthington. He says: "The spring is too high to get any drinking water now, but the water is receding rapidly. Crops are off from 35 to 40 per cent—that is, the cotton crop. Cane is about the only crop that can stand too much water."

Mr. and Mrs. W. M. Dale are now happy, in consequence of moving into their elegant new home, East Main street N., recently completed. This home contains eight large rooms, exclusive of reception halls and bath room, and is one of the neatest, most modern and conveniently arranged in the city. Mr. and Mrs. Dale have a right to feel proud of their new home, and friends are extending congratulations.

John Entenza, the cigar manufacturer of Waldo, was in the city for a few hours yesterday. He was en route home from High Springs and other points where he has been in the interest of his goods, and reports encouraging trade. Mr. Entenza, who is a commissioner of the Alachua County Fair Association, states that considerable interest is being manifested in the State Fair in his section, which is growing every day. He proposes to send to the State Fair a fine exhibit of the products of his factory.

After a short visit to her brother, F. M. Prewitt, in this city, Miss Bessie Prewitt returned to her home at Waldo Saturday.

Mr. and Mrs. H. Mattox of Archer were among the visitors to Gainesville yesterday. Mr. Mattox is the proprietor of the Archer Foundry and Machine Works, recently established, and states that he is enjoying a fine trade already.

Misses Lillian Norton of Tampa, Jettie Futch of Haynesworth and Ruby Parnelle of Lake City, who have been attending the University Normal, subsequently taking the State teacher's examination, returned to their respective homes yesterday.

Captain W. T. Whitney of Fernandina, a graduate of East Florida Seminary, after a visit to friends here, has gone to Ocala to spend a few days with Guy Zewadski, his old schoolmate. Friends of Captian Whitney will be pleased to learn that he has decided to enter the profession of teaching in Alachua county, and has been assigned the principalship of the Newberry school, with Miss Cylla Kennedy as assistant. The school will open September 18.

THE WALDO SCHOOL.

It Will Open Monday, With Prospects of Successful Term.

The Waldo school will open for the fall term on Monday, and indications point to a large attendance.

The school the coming term will be in excellent hands, the faculty being among the most efficient and popular teachers of the county. Prof. Joseph Henderson Coffee, who conducted the school last year, has been retained as principal, and will have as assistants Misses Edith Baird, Elsie V. Smith, Claudia Ambrose and Nora K. Knoblock.

The average attendance of the Waldo school last year was as high as any in the county, and Prof. Coffee anticipates the same result the coming term.

A PAINFUL ACCIDENT.

Horse Ran Away, and J. I. Griffin Sustained Injury to Limb.

While Jesse I. Griffin and son were driving from their home, Jonesville, to Newberry, Wednesday, the horse attached to the buggy became frightened and ran away, almost demolishing the vehicle, and resulting in painful, if not serious injury to the elder Griffin.

Both occupants were thrown from the buggy, and in some manner Mr. Griffin sustained a broken or fractured leg, from the effects of which he is confined to his home. The young man escaped unhurt.

An Ancient Letter.

One of the ancient curiosities to which our attention has been called recently was a letter of which E. E. Voyle is the author, dated September 2, 1873, which makes the document now in its thirty-third year. The letter was discovered in an old book in the possession of Dr. T. F. Thomas. It is printed on a small slip of paper, which is evidence that the author, who had just arrived from his home, Bristol, England, had printed a number to send to his friends across the sea. It says: "Gainesville, Alachua county, Florida, U. S. A., September 2, 1873. I arrived here all right and in good health. Found the thermometer at 90 in the shade. Golly! E. E. Voyle."

Scholarship Appointments.

At the regular meeting of the school board, held Tuesday, the board awarded the honorary scholarship to the Florida Female College to Miss Gertrude Westgaard, while H. Clay Parker of LaCrosse, son of Captain H. C. Parker, was appointed to the scholarship of the University of Florida.

These scholarships were awarded under the provisions of the Buckman law, which allows each county an honorary scholarship in the Florida Female College and the University of Florida.

Friends of the young people congratulate them upon receiving the appointments.

Attention, Subscribers.

Subscribers to The Twice-a-Week Sun need not wait until they come to the city to pay their subscription, as they can send same through the mail or make settlement with the postmaster. The date to which your subscription is paid is printed opposite your name, and we would appreciate prompt renewal, as our own bills have to be paid weekly.

The residence of T. B. Walker in Jacksonville was visited by sneak thieves Friday morning, who first enjoyed a smoke at Mr. Walker's expense and then took a valuable gold watch and departed.

MUST HAVE CERTIFICATES.

Passengers Without Necessary Papers Experience Much Trouble.

William Winner of Chicago, who has been in Gainesville so long he good-naturedly admits that he is almost entitled to the term "Cracker," has returned from a short business trip to Jacksonville.

Mr. Winner states that to save embarrassment and inconvenience all passengers traveling towards Jacksonville now should provide themselves with a health certificate. "The health officer boards the train at Baldwin," he continued, "and if a fellow is not well known and cannot show a clean bill of health he is sure to be dumped off at that point, for he will not be permitted to enter Jacksonville. Had it not been for my friend, J. B. McDonald, with whom the officer was personally acquainted, vouching for the fact that I had not been affected with yellow fever or small-pox or any other contagious disease for ten days past, and that I was a citizen of Gainesville 'in good standing,' I would certainly have been turned back, and I feel very grateful that my friend McDonald was present and volunteered to vouch for me."

Mr. Winner says the authorities are very strict along this line.

It has been decided that we are entitled to permit the casting of 200 votes in the free library contest for each yearly subscription paid for prior to October 15th, 1905. Subscribers who have paid for the paper since June 14th are entitled to vote. Coupons can be obtained at this office.

The Twice-a-Week Sun being entitled to permit the casting of 200 votes in the free library contest for each yearly subscription paid for, the ladies of Kirby Smith Chapter, U. D. C., take this method of notifying those who pay their subscriptions prior to 7 o'clock p. m. of October 14th, 1905, or who have paid since June 14th, 1905, that the Chapter will greatly appreciate their support. Should the Chapter win the library the reference books will be given to the Gainesville High School, where they are badly needed, and the others to the Hospital Association. Simply write the editor of The Sun to permit Mrs. J. F. McKinstry, Jr., to cast your vote, and the ladies will greatly appreciate same.

Dr. Hiram Byrd is now giving occasional lectures in Florida relative to manner in which the mosquito bites. In this section the people have already as much knowledge as a lecturer could give. What they want is a remedy.—Quincy Times.
